

Prepare your security posture with an

# ISO 27001 BASELINING PACKAGE

INCREASE YOUR INFORMATION SECURITY  
MATURITY & ALIGN WITH BEST PRACTICE

## IMPLEMENT AND GAIN VALUE FROM ISO 27001

Do you need to formalise a baseline security framework for continual improvement against people, process and technology?

A new security framework requires extensive risk assessments, audits, and processes to be implemented in-line with a security policy selected, and extra team resources may even be required to assist with a new policy.

**Secure Agility can help.**

## OUR TWO-PART ENGAGEMENT INCLUDES:

**PART A:** An extensive risk assessment along with the audits and processes to be implemented in-line with a selected ISO approved security policy.

### Deliverables:

1. ISO 27001 Templates
2. Security Consultant review
3. Selection of the appropriate templates for your specific context

**PART B:** Following the initial scoping exercise Secure Agility will supply a Consultant, to assist you in completing the required templates.

## YOUR PROVIDED DOCUMENTATION WILL INCLUDE:

- 140+ template documents – including policies, procedures, controls, checklists, tools, presentations and other useful documentation
- Gap Assessment checklist – to help you identify your steps to compliance
- Statement of Applicability – an ISO 27001 required document
- Expert review of three completed documents
